

Pre Bid Queries Response (Tender No.: DAFFPL/FF/2025-26/02)

S. No.	Tender Clause	Query	DAFFPL Response
1	General: Approved Makes (Makes and Model) as per Price Bid.	OEM Flexibility: We request you to kindly allow participation from multiple OEMs meeting the required specifications, instead of restricting to a specific brand. This will help ensure wider competition and better technical and commercial offerings.	Please refer to the attached Make List
2	General:MAF Confirmation for Camera and NVR	Kindly confirm whether MAFs are mandatory for both IP cameras and NVRs. If yes, we request you to clearly specify the format and acceptance criteria for the same.	<p>Bidders to note that MAF is required for camera's and NVR.</p> <p>Bidders are requested to confirm on their letterhead that MAF from the OEM shall be submitted at the time of execution.</p> <p>Bidder to note that MAF from OEM (Mentioning DAFFPL Tender No: DAFFPL/FF/25-26/02) shall be submitted along with technical datasheet for approval (Specific to cameras and NVR). Payment of Cameras & NVR shall only be released upon submission of MAF from OEM and other required documents.</p> <p>Please include a contact number and email ID on the MAF for verification purposes. The MAF will be verified with the issuing authority of the OEM.</p>
3	General: Test certificate confirmation	Please clarify whether third party test certifications are required for the offered items. If so, we request confirmation on acceptable formats and issuing bodies.	Technical datasheet for items to be submitted for prior approval. All applicable test certificates from OEM are required as applicable (PESO, etc.)
4	Technical wrt SFP Module Bandwidth	Kindly confirm SFP Module Bandwidth	Minimum 1.25 Gbps
5	Payment Terms	Kindly confirm Payment Terms	No Change.
6	-	Quantity May Vary	The quantities shown against the various items are only indicative of the quantum of work and it may vary as per site requirements. Billing/payment will be made according to payment terms and site measurement. Vendor to make measurements at site before dispatching any material.
